LEGEND FOR SCHOOL AND DISTRICT SUMMARIES

The school and district summaries contain all the information in the school and district reports. Two versions of the summaries are available. The condensed version contains all the data on pages 3, 5, and 7 of the reports. The complete version contains all the data from all pages.

Line 1:

Code: This is the district and school code number assigned to the school by the Massachusetts Department of Education

District: The district name .

School: The school name (printed only when the report is about a school).

Lines 2 and 3--STUDENTS TESTED (Data from page 3 of the report):

Enrolled: The number of students enrolled in the school

Exempted: S.E. The number and percentage (relative to the enrollment) of special education students exempted from testing

Bil. The number and percentage of bilingual education students exempted from testing

Included: Total The number and percentage of students included in the report (the number enrolled less the number exempted)

S.E. The number and percentage of special education students included in the testing

Bil. The number and percentage of bilingual education students included in the testing.

Line 4 BACKGROUND FACTORS (Data from page 7 of the report):

REG: The region in the state in which the school or district is located.

1 Greater Boston

4 Southeast

2 Northeast

5 Greater Springfield

3 Central Massachusetts

6 Northwest

KOC: The Kind of Community in which the school or district is located.

1 Urbanized centers

5 Rural economic centers

2 Economically developed suburbs

6 Small rural communities

3 Growth communities

7 Resort/retirement and artistic

4 Residential suburbs

PEI: Parent Occupation Index--a value from 1 to 4 indicating the relative socioeconomic status of the occupations of the students tested (Note: This background factor was used for grade 3 only.)

MEI: Mother's Education Index--a value from 1 to 4 indicating the relative educational level of the mothers of the students tested

FEI: Father's Education Index--a value from 1 to 4 indicating the relative educational level of the fathers of the students tested

HLI: Home Language Index--a value from 0 to 1 indicating the proportion of students who do not typically speak a language other than English at home

Lines 5-7 READING (Data from pages 5 and 7 of the report):

60-- Two numbers are presented here, separated by a slash. The first number is the percentage of students who would have passed the test if the statewide standard had been 60 percent correct. The second number is the percentage of students who did not take the reading test, and therefore whose minimum competency status is unknown.

CSB= The Comparison Score Band (the performance of the middle 50 percent of similar schools or districts)

70-- The same statistics as followed "60--", except now the possible statewide standard is set at 70 percent correct.

80-- The same statistics as followed "60--", except now the possible statewide standard is set at 80 percent correct.

Unk. The number and percentage of students in the school whose reading test scores were unknown.

0-38 The number and percentage of students in the school whose reading test scores were between 0 and 38 percent correct.

40-48, 50-58, etc. The number and percentage of students in the school whose reading test scores were within those ranges.

Lines 8-10 MATH--Similar statistics to those above, except they refer to the mathematics test results

Line 11 WRITING

The percentage of students passing the writing test, followed by a slash, then the percentage of students whose writing performance was unknown.

The condensed version of the summary reports ends with line 11. The full versions of the summary reports also contain the Subgroup Analysis information from pages 10 (Reading) and 11 (Mathematics) in the school and district reports. Those remaining lines contain, for any subgroup containing more than 10 students, the percentages of students who would have passed had the statewide standard been 60, 70, or 80 percent correct, respectively. The legend for the subgroups is as follows:
